

MEMBER OF THE APPALACHIAN TRAIL CONSERVANCY AND THE KEYSTONE TRAILS ASSOSCIATION

PRESIDENT'S MESSAGE

Maintenance on the AT

Summer is here and each year over 3,000,000 people will hike on the Appalachian Trail, including 3,000 who attempt to Thru Hike the entire trail. Not all of them will pass our section of the trail but the ones that do will find a well groomed trail. This spring we've had several trail maintenance work hikes getting the trail ready for the many hikers using the trail this summer. Club members and volunteers have removed weeds, picked up trash, cleared paths and painted blazes to make navigating the trail easier for the thousands of hikers who use the trail each summer. The new Field and Brush Mower the club got with a grant from LL Bean made clearing a wider path easier. The 10.3 miles of the trail we maintain may seem like a drop in the bucket compared to the 2190 miles of the entire trail but it is still crucial to maintain to keep a continuous clear path. I recently lead a hike on the D & L trail that included a section of the trail that had not yet been completed. That small missing section had a significant impact on the route of the hike just as a poorly maintained 10 mile section of the AT would have been.

Last year our club had 39 members contribute 1149 hours of maintenance. This saved the tax payers around twenty five thousand dollars according to amount of pay the National Park Service pays for this type of work. We also preserve history by maintaining Lock # 2 along the Lehigh Canal which was used to transport anthracite coal and pig iron beginning in the 1800s.

We always get compliments on how well maintained our shelters and our section of the trail are and I want to thank all of our volunteers who get out there and work hard. I also want to thank all of our "administrative" volunteers and board members both past and present who have kept this club operating for 86 years.

Our First Hike On The Appalachian Trail

After many day hikes on the Appalachian Trail, we decided to take the plunge and invest in all the accoutrements for a section hike. We bought items at REI, Walmart, from Amazon, and numerous other sources to round out all the items we thought we'd need. Our favorite items were the front strap water bottle holder and our sit pads.

Our friend Patti and I pulled out our copies of AWOL's Guide to figure out where we could do a short section hike. One important factor was covering a part of the trail that Tom and Trip had not hiked yet. Tom and Trip are working to complete the entire trail. We decided on a 23.6 mile section in Virginia which would go through Grayson Highlands State Park and would also give us opportunities for water, shelter, and trailhead parking.

We drove down to Marion, VA in the rain and stayed at a local hotel. Tom, Patti and Trip met us there, they drove from MD. It rained all night and the next morning was cool with fog and mist. Our shuttle driver to Massie Gap was "Rambunny." She hiked the AT three times in a row! Great inspiration for us as we headed out for three days. We saw a few ponies and were surprised to see many Longhorns. We did 8+ miles to Old Orchard Shelter and made camp.

Day two the weather was good, but rain was building. We hiked 8.5 miles with a tough 2 mile uphill section. I'm sure I was quite amusing to the young thru-hikers zipping by me as I stopped to catch my breath. This is tough! We hiked off trail to the Hurricane Creek Campground. As soon as we got our tents up, it started raining. It rained for 40 minutes and when it stopped we scrambled out of our tents to make dinner. Ate real fast, cleaned up, hung our bear bags and then the crashing thunder and pouring rain started again. It rained from 6:30 pm to 4:00 am. Note to self, bring a book, I had not brought one because of weight. There was no cell reception and my phone charger was only good for one charge, which I used the day before. So with a low cell battery, I turned off my phone hoping to save power for picture taking. I kept my phone on Airplane Mode while hiking.

Day three was a soggy, muddy, slippery trail. We still made good time for a 9+ mile day. When we came to the side trail for the Trimpi Shelter, I decided I didn't want to hike the 0.1 mile to go to the privy. We got to a beautiful meadow and the sun came out, and Rambunny drove up to pick us up within 5 minutes of us reaching VA 670. What timing! We were sore and tired, but oh so happy that we were able to accomplish our first section hike. We celebrated with a cold beer at the Flying Mouse Brewery in Daleville, VA.

Terri Stubits

Left to Right - Patti, Tom, Trip, Terri and Neil.

Summer 2018 Hiking Schedule and Upcoming Events

FOR THE MOST CURRENT SCHEDULE OF EVENTS, CHECK OUR WEBSITE AT

MEMBER OF THE APPALACHIAN TRAIL CONSERVANCY AND THE KEYSTONE TRAILS ASSOCIATION

The general public is invited to join us on hikes and other events. If a club or organization wishes to include one of our hikes as a formal activity on its schedule, we ask that it contact the leader in advance for permission. Times listed are departure times; please arrive at least 15 minutes before the listed time. Starting times are strictly observed and appropriate clothing and sturdy shoes/boots should be worn at all times.

Generally, our pace is moderate with opportunities for resting and sightseeing. Every attempt is made to assist and encourage hikers, but we cannot be responsible for their safety on the trail. Any rugged outdoor activity entails risk, and we expect all participants to rely on their own judgment and good sense to take care of themselves and know their limitations. Anyone under 18 must be accompanied and supervised by an adult. Hikers are expected not to lag too far behind the main party.

We car-pool as much as possible to save fuel. PASSENGERS PAY DRIVERS 10 CENTS PER MILE TO DEFRAY FUEL EXPENSE. Drivers, please remember to check your mileage and let the passengers know how much mileage reimbursement they owe you.

Meetings are held at 7:30 pm the first Wednesday of the month at St. Timothy's Lutheran Church, 140 South Ott Street, Allentown, Pa. Meetings include a discussion of the previous month's activities, as well as upcoming activities. Scheduling meetings are held quarterly for members to coordinate hikes/trips, etc. for the upcoming schedule. All members are invited and encouraged to schedule activities; we are a 100% volunteer organization, and it is up to members to keep the schedule filled.

AHC HIKE RATING SYSTEM

In an attempt to assist hikers, a hike rating system has been set up to allow the hiker to judge his/her ability to complete the hike. The rating system will precede the Allentown Hiking Club's usual hike description. On multi-day outings such as backpacks, the rating for the hike will reflect the distance traveled on a per-day basis. Remember that the hike ratings are assigned by the hike leader, and are therefore based on the leader's subjective opinion. The rating system is:

RATING	DESCRIPTION (distance,terrain,pace)
A +	Up to 7 miles, little climbing and easy terrain, 2 mph or slower
Α	Up to 7 miles, some climbing and/or rocky terrain, 2 mph or slower
<u>B</u> +	Up to 7 miles, some climbing and/or rocky terrain, 2 to 2.5 mph
В	7-10 miles, some climbing and easy terrain 2 to 2.5 mph
C+	7-10 miles, some climbing and/or rocky terrain, 2 to 2.5 mph
С	7-10 miles significant climbing and/or rocky terrain, 2 to 2.5 mph
D+	10-12 miles, some climbing and/or rocky terrain, 2 to 2.5 mph
D	10-12 miles, significant climbing and/or rocky terrain, 2 to 2.5 mph
<u>E</u> +	Over 12 miles, some climbing and/or rocky terrain, over 2.5 mph
<u>E</u>	Over 12 miles, significant climbing and/or rocky terrain, over 2.5 mph
